of the European Union

#WH - Call for Partners #5

Updated on March 29th, 2021

When you can't walk, you can still fly
is the hopeful message that is sent by HandiFly International.

Already able to make people with disabilities **discover free fall**
and allow them to **compete in tandem** carried by a valid person,
the goal is now to have them compete in **complete autonomy**.

For the European Union, which supports this project, **wind tunnel HandiFly**
will be a strong modern mediatic symbol of **social inclusion**.

The objective is a **mass** development all around the world
for the **largest kind of impairments** as possible.

Project #WH received, on November 9th, 2020, a financial grant decision under
the Erasmus+ Sports program from the Commission of the European Union
under the reference 622109-EPP-1-2020-1-EN-SPO-SNCESE.

Co-funded by the
Erasmus+ Programme
of the European Union

#WH will take place over a period that started on November 1st, 2020
and will end on October 31st, 2022.

Conducted by
the **Fédération Française de Parachutisme (FFP)**,
the project will have

A double mission:

#WHProgram: From November 1st, 2020 to October 31st, 2022.

A mass development program through the consolidation of a network of wind tunnel and organizations, to experiment, implement and disseminate best practices for the first accompanied flights, solo progression and competition.

This program will develop activity throughout Europe, test good practices and prepare a large participation of autonomous disabled persons able to compete on experimental(s) format(s) to ensure the success of #WHEvent.

- **Main partners** from different EU countries will be selected and will receive very significant financial assistance to conduct #WHFirstFlights & #WHProgression programs.
- **Additional partners** from EU will join the network and will receive additional financial assistance to run the #WHDissemination program.

#WH - Call for Partners #5

Updated on March 29th, 2021

#WHEvent: In Marseille (France) from May 18th to 21st, 2022

The organization of the 1st ever global Handifly wind tunnel event including the 1st World Handifly Wind Tunnel Competition that will be a real “experimental laboratory” for wind tunnel competition formats with disabled persons.

The multi-activity public event will include the competition, first flights and demonstrations, a seminar, a conference, the host of valid and disabled children (schools and neighborhoods), media productions and a live webcast.

- The **main partners** will receive full financial support for their delegation’s participation in the event, with travel expenses from the country of origin included.
- **All other persons or groups**, whether they are from the EU or not, wishing to participate in the event will be able to apply on www.ffp.asso.fr/wh as of February 11th, 2022 (registration closes on April 11th, 2022). Selected delegations will receive full financial support for their participation in the event, excluding travel costs from the country of origin.

Call for applications to select partners:

General condition for application as wind tunnel or organization:

Being established in a Member State of the European Union (or that participates in the Erasmus program).

Specific condition for application as wind tunnel:

Havin an air stream with a minimum diameter of 12ft.
